

due to the pandemic and local sources aided in keeping food products on the shelves.

Representative Wittman has a particular interest in seafood. As a former seafood inspector for Virginia, he recognizes the importance of safe packaging of meat products and spoke of bio film on meats that leads to spoilage. Prior to Congress, Representative Wittman worked with the Food and Drug Administration on its seafood hazard analysis critical control point (HACCP) program.

He was involved with the testing of seafood to learn how norovirus, Listeria, or other foodborne pathogens emerge and spread on seafood, and provides a wide variety of food to consumers in the
